

NEW XS1.4 MiniChip

Actual Size!
1.4mm x 8.0mm

Super small 1.4mm x 8.0mm microchip allows for a smaller gauge & sharper needle (33% smaller than standard 2.1mm x 12.5mm microchips)

Excellent long term microchip reliability

Multiple labels & complete injector inside a sterilised blister pack

Ergonomic injector

AAR registration available

Globally unique identification

Finest quality European Microchip Technology & Manufacturing

Ergonomic Design - Easy Manipulation & Injection

Ultra Sharp Needle

Security Ring prevents Microchip ejecting before needle is in place

Injection completed click

Injector breaks down to 2 pieces to reduce bio-hazardous waste
